INTRODUCTION

This edition of the Vermont Juvenile Justice Sourcebook marks the ninth year of annual statistics on delinquency and criminal filings in Vermont Family and District Courts. The statistical tables presented in the report present a statistical pictures, permit examination of trends, and enhance the ability to conduct research and evaluation on Vermont's juvenile justice system. As in previous years, the statistical analyses have been developed with the needs of program managers and planners and have drawn heavily on recommendations from users in order to improve program and policy evaluation capabilities, and to meet information needs generated by expanding interest in the criminal justice system involvement of youth in Vermont. Discussion regarding juvenile and youthful offenders requires sound statistical support to understand the nature and trends of juvenile involvement in crime. This report will hopefully contribute to a better understanding of juvenile justice in Vermont and the ongoing formation of juvenile justice policy.

No major changes have been made to this year's report, although features made in recent years are worthy of highlighting, including:

- g A juvenile justice system flow chart.
- g The presentation of data by **county** in many tables throughout the report.
- g Case processing times for both juvenile and criminal court data.
- g Rolling **five year averages** in many tables to allow comparison of the current year with recent trends.
- g An appendix of population data so that users may easily construct **rates**.

A subject index is designed to allow easy identification and location of information, while "highlights" for each section are included to point out key characteristics and trends in juvenile justice in Vermont. The report is published electronically on the Agency of Human Services website (www.ahs.state.vt.us); the electronic edition will be available there in early 2005 with changes made to the web interface to make it easier to use for those with disabilities. Users are encouraged to use the Sourcebook on-line and download the charts and tables as needed. (Please note that the report is published in Adobe Acrobat PDF format and requires the Adobe Acrobat reader, available free from Adobe at www.adobe.com)

As in previous editions, the statistics contained in this report include delinquency charges disposed in Vermont Family Court between state Fiscal Years 1995-2004 and criminal dispositions on youth aged 10 through 20 in Vermont District Court from calendar years 1988-2003. Readers should note that the juvenile delinquency analysis is organized in fiscal years while the criminal court analysis is organized in calendar years.

For purposes this report, *delinquency* is used to identify cases disposed in Family Court and *criminal offenses* refers to cases disposed under the criminal docket of District Court. Unless otherwise specified, all analyses were conducted at the charge level rather than on individuals. This means that one individual could be responsible for more than one charge disposed during the period covered by these data. A charge-based analysis has the advantage of being indicative of total delinquent and criminal activity and is necessitated by the manner in which data are captured by the courts.

Funding for the continuation of the delinquency database was provided by the federal Juvenile Accountability Incentive Block Grant program through the Vermont Juvenile Crime Enforcement Coalition and the Agency of Human Services under grant number JA-816-CJR-3602(3).

SECTION 2

DISTRICT COURT CASES

1989-2003

District Court Criminal Case Highlights

The number of criminal charges disposed in 2003 for persons age 16-20 was 6,906, a 6% decline from the previous year.

The number of criminal charges disposed increased by 52% during the ten year period from 1994 to 2003, however, from 2000 (8,930) to 2003 (6,906) the number declined by 23%.

The delinquency filings increased slightly while the number of criminal dispositions for youthful offenders declined slightly over the past year from 2002 to 2003.

The 2003 disposition rate of 151.2 charges per 1,000 youth ages 16-20 was slightly lower than the 2002 rate of 157.8 charges per 1,000 youth.

The number of charges for illegal possession of alcohol by a minor decreased slightly in 2003 to 814 with 537 ending in conviction. Charges for this offense were considerably lower in 2003 than the 10 year average of 1,373 charges with 761 ending in convictions.

The number of 2003 citations for .02 BAC (328) decreased by 34% from the 2002 figure of 497. The enactment of a “zero tolerance” law and increased enforcement were most likely responsible for much of the increase in 1998.

64% of felony charges filed against youthful offenders in 2003 were for property offenses while 19% were for violent offenses.

Drug and alcohol offenses accounted for 35% and property offenses 25% of misdemeanor filings in 2003.

Males accounted for the majority (82%) of charges filed in 2003, as has been the case in previous years.

Relatively few charges are transferred from District Court to Family Court each year with 25 felony, 86 misdemeanor, and 4 motor vehicle criminal charges transferred in 2003.

Criminal charges involving youth age 20 and younger comprised 26% of all felony, 32% of all misdemeanor and 13% of all motor vehicle charges filed in 2003.

The number of felony charges filed against offenders age 20 or younger (1,288) increased by 9% from the 2002 level while non-motor vehicle misdemeanor filings (4,435) declined by 10%.

The charge filing rate per 1,000 persons age 20 or less was 104.6, down from 108.9 in 2002 and significantly greater than the rate of 77.8 experienced 10 years earlier in 1993.

The most frequent felony charges filed against persons age 16-20 in 2003 were burglary (280) and forgery/counterfeiting (138). Other prevalent charges included drugs (134) and grand larceny (111).

The number of property crime filings was greater for 17 and 18 year olds in 2003, while drug crime filings were higher for persons age 19 and 20.

The most frequent misdemeanor charges filed against persons age 16-20 in 2003 were alcohol violations (850), drugs (719), failure to appear (566), and disorderly conduct (341).

Careless and negligent driving (46), DWI-1st (39) and operating without the owner's consent (29) were the most frequently filed motor vehicle charges for 16-17 year old offenders, while driving with a suspended license (347), DWI-1st (281) and careless and negligent driving (144) were the most frequently filed charges for persons age 18-20.
